

Welcome to our Third Here With Us Newsletter

Dear Friends,

It is with much gratitude and love from my heart that I wish you all a very Happy New Year.

I look back on 2022 and am proud of the things I accomplished in keeping with the mission of our foundation, *Here With Us*. The trips that we arranged for the individuals this year were wonderful, beginning with [The Bronx Zoo](#) and ending with the [Museum of Natural History](#). Stop at our website to see for yourself the joy this has brought! I so love being able to provide these opportunities. It does not escape me that without your support these dreams could not be possible. Every single dollar goes directly towards these endeavors. Yes, every penny!

With our fundraising efforts concentrated to one event per year, *The Ron Louie Invitational*, our ability to raise money is limited. If there is ever a time where you are feeling generous, please consider *The Here With Us Foundation*. I promise you a difference will be made in the lives of these individuals.

For 2023 my plan is for one outing per month, if not more. I'm also hoping to bring back the in-person Art classes as well as some other classes I believe will enhance the lives of young adults on the spectrum.

Happy and Healthy New Year to All!

Best Wishes,

Janine Louie
